

WATER BOILER

Turn on using wall switch left of hatch to Cherry Hall
~ 15 mins to be first ready

BEFORE DRAWING BOILING WATER
ENSURE GREEN READY-LIGHT IS LIT.

GOOD FOR 5 LITRES (MORE THAN 8 PINTS) OR 30 CUPS

AFTER EMPTYING TANK OF 5L, WAIT
ABOUT 10 MINS FOR GREEN READY-LIGHT.

USE LESS - WAIT LESS

Turn off electricity at wall when finished
(do not turn the water tap on pipe under the boiler)

Use it right, and it's quicker and safer than using a kettle.
